

A REVOLUTIONARY WATER TREATMENT BRACELET DESIGNED FOR BOILERS & WATER HEATERS

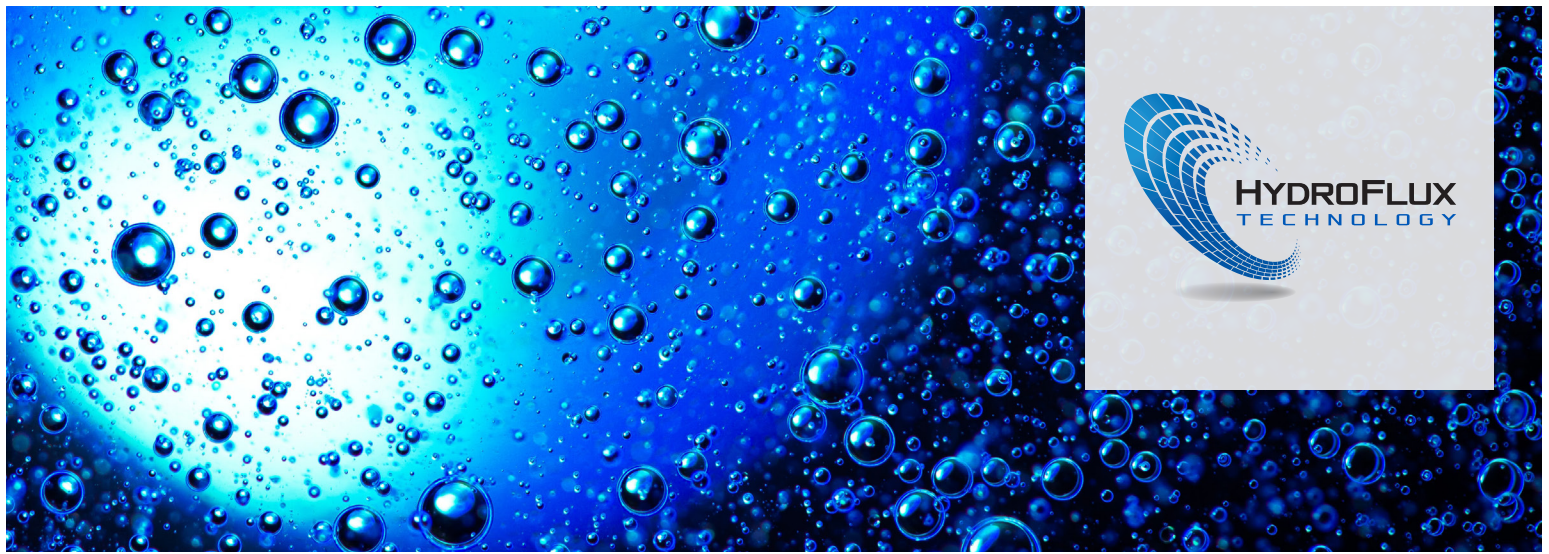

HYDROFLUX UTILIZES A PATENTED MAGNETIC SYSTEM TO CONTROL OR EVEN ELIMINATE SCALE BUILDUP, PROTECTING YOUR PIPES, WATER HEATER, AND APPLIANCES.

Our domestic city water contains heavy minerals, consisting mainly of calcium and magnesium. Most of these salts eventually deposit as scale in your pipes, around faucets, and water heaters.

Trying to heat water through scale can significantly reduce energy efficiency and the lifespan of your appliances. As little as 0.015" of scale can reduce efficiency by 15%.

FROM THE MOMENT HYDROFLUX IS INSTALLED, CALCIUM AND MAGNESIUM PARTICLES REMAIN IN SUSPENSION — NOT STUCK TO PIPES OR EQUIPMENT — FLOWING FREELY DOWN THE DRAIN, SAVING WATER AND MONEY, AND EXTENDING THE LIFE OF YOUR APPLIANCES.

HYDROFLUX BRACELET WORKS WITH NEARLY EVERY WATER SYSTEM

- Boilers
- Cooling Towers
- Tankless Water Heaters
- Electric Water Heaters
- Commercial Water Heaters

BENEFITS OF HYDROFLUX:

- Requires **no** plumbing modifications
- Requires **no** water shutoffs
- Requires **no** salt or ongoing expenses
- Requires **no** electricity
- Requires **no** dielectric unions
- Can be installed on 3/4" - 14" pipes
- Maintenance free
- Completely silent operation
- Improves water pressure & flow
- Prevents and removes existing scale build-up
- Will not corrode appliances, pipes, or fixtures
- Safe for older homes
- Eliminates harsh chemicals used in cooling towers – huge water savings
- **30 year warranty**
